

## LINDSEY "HAILEY" ANTON

Educator, South Campus

**What inspired you to become an educator?**

I have a passion for the industry of fashion and cosmetology. I wanted to share my knowledge and experience with others.

**What do you like most about instructing the next generation of cosmetologists?**

I love the diversity of students and I am always learning something new.

**What is a typical day like in your position?**

I taught in the classroom for just over a year. The level was very in depth and the students were very busy learning something new each day. Currently, I am a clinic educator. The day starts at 8:00 am sharp. Attendance is taken and at 8:15 the students begin consultations. I check their services and monitor their progress.

**What is your fondest memory thus far as an educator?**

There are too many to list. I love the fact that I influence lives everyday. The relationships I build with coworkers, students, and guests will be with me forever.

**What advice do you like to share with new students and/or those preparing to graduate?**

Each student that enrolls into Gene Juarez Academy has goal that they are all reaching for. My goal for each of them is to help maintain their drive and motivation to achieve their dream. I tell them to stay focused and maintain their passion for the industry and never stop learning.
